there will undoubtedly be a split among the regulars.

If there is a split, Kings County will have three factions in its Democracy instead of two-that is, unless the followers of James D. Bell join forces with the Shepard people to fight the machine. At a meeting of the Executive Committee the fight will be made on the question of whether the reorganizers are to control the party or whether the old machine is to lead.

The matter has been brought to a head on the proposed election of new State Committeemen in place of Senator Michael J. Coffey, John Delmar and John McCarty, the old machine leaders, who were forced out by the Bell faction. Flower showing by his past record that Fellows in future prosecutions may protect Tam-many officials who are accused.

Although it has not been formally determined to do this, members of the LXX. this morning expressed themselves as being in favor of such action, and said they did not think it would be difficult to get the required evidence.

It has been suggested that the LXX. may defer action until Morton becomes Governor, and then have him direct the Bell Men to Dispute Leadership with Attorney-General to conduct the prosecutions. The objection to this course as pointed out by members of the LXX. -day, is that after the first of the year there may not be a Grand Jury so favorable for reform as that drawn for the December term. In this Grand Jury there are the names of Charles Stewart Smith, Chairman of the Committee of LXX; Francis H. Leggett, John Sloane, Theodore B. Woolsey, E. W. Bloomingdale, J. E. Quintard and George De Forest Grant.

Theodore B. Woolsey, E. W. Bloomingdale, J. E. Quintard and George De Forest Grant.

It is argued that all of these would have no mercy in the consideration of officials charged with guilt, and that therefore Fellows should be downed at once to give way to some prosecutor who would not shield Tammany men.

When spoken to about he matter to-day Joseph Larocque, who was chairman of the Committee that waited on Gov. Flower last evening, said he thought that some decisive action should be taken at once.

"We thought." he said, "that there should be some one designated to prosecute delinquent officials who could devote his entire time to it, and who is not afflicted with Tammany, as is District-Attorney Fellows.

"It is not probable then that action will be delayed until Morton becomes Governor?" asked the reporter.

"I hardly think so," replied Mr. Larocque. "I cannot, however, speak for the Committee. We have not yet taken any action, and until that time I do not care to express even a private opinion about what should be done."

Other inembers of the LXX, were equally unwilling to be quoted at present, but a number expressed the private opinion that the most practical course is to bring evidence before the Governor, showing that Fellows is totally unfit to conduct the proposed prosecutions, and to bring such an array of evidence that Gov. of the LXX. to-day that the Committee is not only going to force the prosscution of police officials incriminated by
the Lexow Committee, but that every
city department will be investigated.
This is considered necessary in order
that Col. Strong may have a fair chance
to give the city clean government.

"A Mayor's Power of Removal bill
will not be sufficient to insure reform."
said a member of the Committee to-day.
"There are many subordinate officials
who will, of course, remain in office, and
as an indication to them of what reform
means it is necessary to send some of
the guilty officials to prison.

"Only prosecution can secure this, and
the LXX. will force the prosecution.
Even one or more police justices may
be indicted, and it is not violating any
confidence to say that the Committee
has its reform eye on men high in nearily all the departments."

If the LXX. succeeds in compelling
Gov. Flower to direct the AttorneyGeneral to conduct prosecution, he or
his deputy will, under the laws of 1894,
proceed independently of the DistrictAttorney, and will exercise the same
power in the Grand Jury room and before the Court.

An air of respectful quiet has been observed on the Campus to-day, and the usual games and enjoyments of Campus life have been set aside. It was expected that all college exercises would be suspended until after Dr. McCosh's burial, but the Faculty has decided to carry on the usual routine of lectures and recitations until the day of the funeral. All meetings of the students have been postponed.

The funeral services will be held next Tuesday at 2 o'clock in Marquand Chapel, Princeton. The interment will take place in the old and historic Princeton Cemetery on Witherspoon street, which is called the "Westminster of America" because of the large number of noted men buried within its walls. Among them are Aaron Burr, Jonathan Edwards, John Witherspoon and all the former Presidents of Princeton.

It will probably be decided to-day who will preach the funeral sermon, and arrangements for trains and other details will be announced later.

The fact of Dunphy's return was soon known in the Second District, where it is regarded as being full of significance. It was his withdrawal from Tammany Hall and his scathing denunciation of Divver's methods that drew unfavorable attention to the latter. It is believed that Dunphy really hurried back to take a hand in the reorganization of Tammany Hall. If so it means the end of Divverism in the Second District.

Dunphy has a big following, and now that Divver himself is out with his henchmen, Brown certain to go, and "Tim" Sullivan back in the Second, who is friendly to Dunphy, the latter will play a big part in the future politics of the district.
